Tasting notes

-  Crystal clear colour, fat tears.
-  The intensity of the nose is remarkable with its notes of iodine and liquorice which mingle with white flowers and fresh citrus fruits. In a second phase, aromas of fresh herbs and rocks are revealed.
-  The attack is supple and unctuous and the texture opulent and suave. The sweetness dominates unequivocally. The finish, on the contrary, is carried by salinity and iodine. Licorice and bergamot are diffused in the retro-olfaction.
-  A rum identifiable by its purity and freshness, reminiscent of the Atlantic Sea spray.
